

TECNOTION®

direct drive in motion

Motor portfolio

Vacuum rated ironless motors

- › Low outgassing design
- › Low thermal resistance
- › High cleanliness
- › Completely vacuum compatible
- › Cleanroom manufactured

Vacuum rated ironless motor force

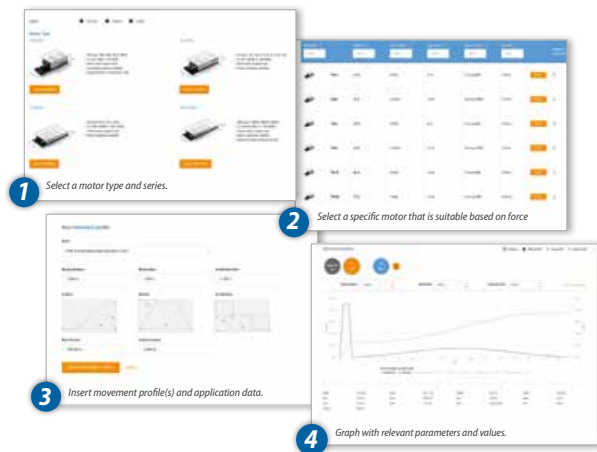

Peak force

Continuous force

Use our online simulation tool to select the best fit motor for your application.

The online simulation tool makes finding the perfect motor for your application straightforward. It will help you select the right kind of direct drive motor in just 4 steps. Figure out which amplifier to use, and create detailed reports containing all critical values and performance graphs. Simulate your drive task, experiment with different scenarios and quickly find the best fit motor. www.tecnotion.com/simtool
